This rumor is going around because you

Anyway, what's new you been watching anime lately? If you're genealogy shows, wait for college to do that. You think you can make it to my school like that? Your mock are coming up.

Are you going around getting beat up again? Last year was no joke. Mid-semi-crossing... even if you do get into my school, don't go around saying you're my brother. Little bastard.

Dude, I'm because you're being such a pussy that the others are telling you so lightly. Kid-nower days don't bother students who are bit. 2nd place, so what? He hates seeing with you! Say in, day out- all you do is be a pushover.

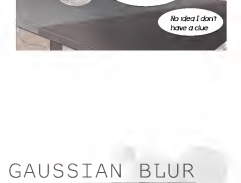
*If I take her there...what will Jang Kwan Soo do with Choi Yool?*

Well... even if it is Jang Kwan Soo I'm sure nothing too big will happen, right? She in the same class... and even if something does happen, I'm sure I won't get caught up in it! All I'm doing is taking her there...
Even if something does happen, Choi Yool has those kinds of rumors floating around her anyway. It's the truth, for any sake...

Right, now that I think about it... there were a lot of rumors not too long ago about that girl who hung out with him and his posse and something happened to her but nothing was confirmed to be true and things just died down. Although he got arrested up dressing out

*That's right. Shit won't get real. I'm not a part of anything.*

*And for now, it'd be best for me to create an environment suitable for studying and not getting interrupted.*



*Ding Dong

Hey... Dong Wook
Hey... hold up!

Where are we going? Huh?
Why all of a sudden...? Where are we?

Friends?

This is Daum News.
It has recently come to our attention that there has been a gang rape involving a group of male students of an unidentified high school in Seoul.
These students lured her into a student identified as Kim's one room apartment...
여고생 집단성폭행

* Gang Rape

Hey, did you see the news?
Of course! Dude, why would you be friends with a rude Hwang Dong Wook who took Chul Yeol all the way there. Is it fun?

It probably is considering how Hwang Dong Wook can drag them like anytime going to bars.
Then, that makes Hwang Dong Wook the same as the rest of them. Is it really right not to report him?

Will he be able to study like this?
Exactly. That heartless bastard.

* Startled

I'm suddenly imagining all the unseen crap, it's not my fault, right? Would they really go so far as to get them for some class? They'd probably just talk, just talk.

Um, you see...
You gotta keep your promise... that you'll stop calling me out...

And here I thought... Alright, you little punk. Don't worry.

No. Rather wasn't it me who was in the way?
But I didn't know you were close to Shin Ji-Ho. I have never seen you two talk to-gether in school even once.

Isn't it good to have a boyfriend?
It means that I'll also have someone who'll consider me as his number one and he to rely on my side.
I also have interest in that kind of thing.

Because... I have a debt to you and I'm being a pursuite.
But getting along so well is kinda bizarre and unnatural and
I also thought you wouldn't like it so much.

Are you going to live forever being anxious like that?
You should just pull your foot out and shake it off if it slipped into a muddy pool.
Are you just going to stay there looking at it and say 'What should I do~'?

The person lived by nothing, feeling the breeze and looking at the stars

Anyway, he lived and died happily.

Then could we say that he could have existed? Or was he fictional from the start?

What's the meaning? You said he lived happily. Then he existed.

Really? Nobody knew he existed

Nor had he memories to share with anybody

Look down there.

Even in this small town there's this many illuminated houses and people living in

In everybody with someone!

Sharing memories and their past

This bound between us may have started in a strange way and it may be awkward but

I think I will need that kind of thing too

Even latter when I get old and could tell there was this and that in the past

Because there's that somebody to remember when I was 19, right here.

If that is the price, I'll remember all of you, even your hair, strand by strand

And that you got hit on by a popular boy when you were 19 years old too. Everything.

I didn't understand what they wanted to say, the development was dull, forced and came out of nowhere.
The lines were so childish, was the scenario an amateur?
